

# 'C190' CAMPERBACK' DELUXE UTILITY CAMPERS

The C190 has been designed to endure the most extreme off-road conditions and offers reduced fuel consumption and vehicle maintenance. It weighs in at around 310kgs - which is less than half the weight of comparable 'off road' traybacks/slide-ons.

Dimensions – 1900mm wide x 2100 long x 1100 high

The lightest on the market!

This reduced weight is instrumental in improving your fuel economy, decreasing vehicle wear & tear and damage to the valuable Australian countryside

**VERSATILITY is the key to this fantastic design!**

This ultra light camper is an independent living system.

The hard floor which doubles as the roof facilitates an almost instant setup, with 12oz canvas, large windows and doors allowing maximum ventilation.

Just over 2 minutes to set the 'Camperback' up in this scene!

Standard inbuilt functions - unique indoor/outdoor kitchen slide allowing cooking either outside or inside - a two burner S/S Stove complete with griller unit - kitchen sink with flick mixer tap fed by a 12volt pump from the 100 litre water tank - 2 kitchen pantries with lots of storage for food and utensils - large drawer for easy access of clothing and bedding inside, as well as two handy shelves for clothing which are accessible from both inside and outside. It can also be used as 'stand alone' secure with all cupboards locked on the 4 jacks supplied.

The use of composite sandwich construction provides the strength and rigidity, required to tackle the harsh Australian tracks.

This payload at around 310kgs bare weight, even includes the tent and standard fittings, making the C190 the ideal travelling companion for your utility or trailer.

*The quality of the fittings and attention to detail are second to none and the C190 is fully gas compliant with a 5 year warranty (conditions apply).*

Handle - easy opening

LED over kitchen

Cupboard latch protector

Draft shield for gas burners

Master switching

Kitchen cupboards & slide

2 x 4kg gas bottles & battery cupboard

Queen size bed with roof LEDs

LED night light

*All these practical features are standard in the Camperback but specialised accessories can add more capability.*

*The living area can be extended by adding annex components to suit – with a simple annex over the kitchen or add 1 or 2 side walls, or full front to enclose the whole area making an extended living room. On the other side a zip on Ensuite allows for discreet personal care option. More storage cupboards shown.*

*The C190 can be fitted onto an existing trailer, or we can supply a painted steel, powder coated or galvanised unit to suit your needs.*

*This gives you the ability to use the trailer for work/home as well as recreation with the added advantage of being able to fit it on to a Ute!*

*Providing an economical recreational option.*
