

CoolFreeze CF-50 & CF-60 Fridge/Freezers

Power Performance from on-board refrigeration

Australia's most popular Kompressor fridge/freezer, the WAECO CoolFreeze CF-50 with 49 litres capacity, is ideal for weekend escapes, caravan and camping, 4WD driving or adventures in the great outdoors where reliability matters. The CF-60 has the same optimized footprint, but is higher, fitting a whole 59 litres without compromising space in the vehicle. Like most WAECO products, these fridge/freezers work on your car battery and also operate on 240 Volt mains power; a key to freedom and mobility, designed to make your camping adventure easier and more enjoyable.

The CoolFreeze CF-50 & CF-60 have 3 stage battery protection, an easy to use operating panel with emergency, quick-chill and memory function and are ergonomically shaped with detachable, but sturdy handles and lid for easy handling and interior access.

To maximize the use out of your fridge in the outdoors, accessories for the CF-50 is available and includes insulated protective covers for all-round protection and improved performance, a fixing kit for in-vehicle stability, a slide for easy access, a wiring kit and battery for remote power.

	<u>CoolFreeze CF-50</u>
Weight:	19 kg
